

My comments are regarding Sinclair Broadcasting's decision to use public airwaves to promote a political agenda, without providing airtime for both sides of the issue, as their license requires. This is not only outrageous, but is illegal. There is no justification for Sinclair's ignoring the laws that obligate them to serve the public interest.

If Sinclair Broadcasting is allowed to air the blatantly political program that attacks the Democratic nominee for President, less than two weeks before the election, then I urge the FCC to pull their license.

Sinclair's actions show that we need to strengthen media ownership rules. It is time for the FCC to intercede on behalf of the public interest you serve. It is time to break up the broadcasting monopoly of Sinclair and others. It is time to return to a truly democratic policy that insures viewers of equal access to all sides of political discourse.

Thank you.
